

Privacy Policy

We are delighted that you have chosen to visit our website. We take our data protection responsibilities with the utmost seriousness and we have designed our website so that you may navigate and use our website without having to provide Personal Data.

This Policy sets out what Personal Data we collect, how we process it and how long we retain it. This Policy applies to all of our processing activities where we act as a data controller.

In this policy, "we", "us" and "our" refers to Gnosis Limited a company incorporated in Gibraltar with its registered address at World Trade Center, 6 Bayside Rd, Gibraltar. For more information about us, see the Contact Us section of this policy.

In this Policy, "personal data" means any information relating to you as an identified or identifiable natural person ("Data Subject"); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an online identifier or to one or more factors specific to your physical, physiological, genetic, mental, economic, cultural or social identity.

In this Policy, "processing" means any operation or set of operations which is performed on personal data (as defined in this Privacy Policy) or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

2. Your information and the Blockchain

Blockchain technology, also known as distributed ledger technology (or simply 'DLT'), is at the core of our business. Blockchains are decentralized and made up of digitally recorded data in a chain of packages called 'blocks'. The manner in which these blocks are linked is chronological, meaning that the data is very difficult to alter once recorded. Since the ledger may be distributed all over the world (across several 'nodes' which usually replicate the ledger) this means there is no single person making decisions or otherwise administering the system (such as an operator of a cloud computing system), and that there is no centralized place where it is located either.

Accordingly, by design, a blockchains records cannot be changed or deleted and is said to be 'immutable'. This may affect your ability to exercise your rights such as your right to erasure ('right to be forgotten'), or your rights to object or restrict processing, of your

personal data. Data on the blockchain cannot be erased and cannot be changed. Although smart contracts may be used to revoke certain access rights, and some content may be made invisible to others, it is not deleted.

In certain circumstances, in order to comply with our contractual obligations to you (such as delivery of tokens) it will be necessary to write certain personal data, such as your Ethereum/ bitcoin or other cryptocurrency wallet address, onto the blockchain; this is done through a smart contract and requires you to execute such transactions using your wallet's private key.

In most cases ultimate decisions to (i) transact on the blockchain using your Ethereum/Bitcoin or other cryptocurrency wallet address, as well as (ii) share the public key relating to your Ethereum/Bitcoin or other cryptocurrency wallet address with anyone (including us) rests with you.

IF YOU WANT TO ENSURE YOUR PRIVACY RIGHTS ARE NOT AFFECTED IN ANY WAY, YOU SHOULD NOT TRANSACT ON BLOCKCHAINS AS CERTAIN RIGHTS MAY NOT BE FULLY AVAILABLE OR EXERCISABLE BY YOU OR US DUE TO THE TECHNOLOGICAL INFRASTRUCTURE OF THE BLOCKCHAIN.

IN PARTICULAR THE BLOCKCHAIN IS AVAILABLE TO THE PUBLIC AND ANY PERSONAL DATA SHARED ON THE BLOCKCHAIN WILL BECOME PUBLICLY AVAILABLE

3. How We Use Personal Data

3.1. When visiting our website

We may collect and process Personal Data about your use of our website. This data may include:

- i. the browser types and versions used;
- ii. the operating system used by the accessing system;
- iii. the website from which an accessing system reaches our website (so-called referrers);
- v. behaviour: subpage, duration, and revisit
- vi.. the date and time of access to our website,
- vii. the Internet protocol address ("IP address");
- viii. the Internet service provider of the accessing system; and
- ix. any other similar data and information that may be used in the event of attacks on our information technology systems.

This data may be processed in order to deliver the content of our website correctly, to optimize the content of our website to ensure the long-term viability of our information technology systems and website technology, and to provide law enforcement authorities with the information necessary for criminal prosecution in case of a cyber-attack.

The legal basis for this processing is our legitimate business interests, namely monitoring and improving our website and the proper protection of our business against risks and your consent when agreeing to accept cookies

The data will be stored for 14 months and will be deleted automatically afterwards.

3.2. When subscribing to our Newsletter

We may collect and process the Personal Data that you provide to us for the purpose of subscribing to our email newsletter. This data may include:

- i. your email address;
- ii. the date and time of registration;
- iii. your IP address.

This data is collected and processed for the purpose of sending you our newsletter.

The legal basis for this processing is your consent as provided in the double opt-in confirmation part of our newsletter sign-up process.

Your email address will be stored as long we have the consent to send you a newsletter.

3.3. When receiving our Newsletter

If you have subscribed to our newsletter, each time you receive a newsletter from us, we may collect and process Personal Data. This data may include:

- i. the date and time you opened the email;
- ii. what (if any) links or URLs you accessed from our newsletter;
- iii. the location it was accessed from

This data is collected and processed for the purpose of improving the content of our newsletter.

The legal basis for this processing is your consent as provided in the double opt-in confirmation part of our newsletter sign-up process.

3.4. When participating in the OWL generation

When participating in the OWL generation we may collect and process personal data. The data will be stored in different instances.

a) On the Ethereum blockchain following data will be stored:

- i. your wallet address;
- ii. the amount of locked GNO and generated OWL; and
- iii. time of locking and locking duration.

The data is used and processed in order to credit the user the right amount of OWL tokens pursuant to our terms of use of the OWL Generation Interface.

The legal basis for this processing is that it is necessary to fulfil a contract with you.

The data will be stored on the Ethereum Blockchain. Given the technological design of the blockchain, as explained in section 2, this data will become public and it will not likely be possible to delete or change the data at any given time.

b) In our Amazon Webserver we will store the following data:

- i. your wallet address;

- ii. the amount of locked GNO and generated OWL;
- iii. time of locking and locking duration; and
- iv. your IP address.

The legal basis for this processing is that it is necessary to fulfil a contract with you.

3.5. When registering to GnosisX

We may collect and process the Personal Data that you provide to us for the purpose of registering to our challenge. This data may include:

- i. your email address;
- ii. the date and time of registration;
- iii. your IP address;
- iv. team name and size; and
- v. the category you will work on.

This data is collected and processed for the purposes of knowing how many teams have registered for the challenge and how to contact the team members.

The legal basis for this processing is that this is necessary in order to take steps to entering into a contract with us.

3.6. When receiving our GnosisX info - email

If you have subscribed to our info - email each time you receive a newsletter from us we may collect and process Personal Data. This data may include:

- i. the date and time you opened the email;
- ii. what (if any) links or URLs you accessed from our Newsletter; and
- iii. the location it was accessed from

This data is collected and processed for the purposes of improving the content of our info-email.

The legal basis for this processing is your consent

The collected data will be deleted after 6 months.

3.7. Submitting your dApp within the GnosisX challenge

When submitting your dApp within the GnosisX challenge we may collect and process Personal Data. This data may include:

- i. your email address;
- ii. the date and time of registration;
- iii. your IP address;
- iv. team name and size;
- v. the category you will work on;
- vi. your dApp and description of it; and
- vii. team bio and picture.

This data is collected and processed for the purposes of contacting the participants and evaluating the submitted contributions. If you make it under the finalists your team bio and picture might be used in our blog. We will reach out to the corresponding teams before publishing the corresponding articles.

The legal basis for this processing is that it is necessary to fulfil a contract with you.

3.8. When visiting our Twitter or Medium Profile

We may collect and process Personal Data about your use of our Twitter or Medium Pro. This data may include:

- i. clicks on a shortened URL;
- ii. a history of referral URLs for clicks of a shortened URL; and
- iii. a history of IP addresses used to access a shortened URL.

This data is collected and processed for the purposes to track the success of the marketing campaigns, blog posts, and other marketing material; and for user demographics in order to identify target markets. This data is collected and processed for the purpose of improving the content of our shared links pursuant to our legitimate interests.

3.9. Deploying a MultiSig and making transactions

When deploying a MultiSig and making transactions we may collect and process personal data. This data includes:

- i. your wallet address;
- ii. smart contract address;
- iii. transaction data (transaction id, sender address, receiver address, amount and payload);
- iv. wallet addresses of potential other owners of your MultiSig;
- v. amount and type of funds stored on your wallet address as well as the smart contract

This is necessary in order to ensure usability, trust and security of multi-signature transaction and transactions on Ethereum in general.

Furthermore, wallet addresses, smart contract addresses and transaction data may be stored locally inside the local storage of the web browser or within the standalone application. This is necessary to provide for a user friendly and transparent user interface and experience.

This data may be processed, in order to deliver the functionality of the product. The legal basis for this processing is your consent, provided by the active submission of the wallet address.

The legal basis for this processing is that it is necessary to fulfil a contract with you.

The data will be stored on the Ethereum Blockchain. Given the technological design of the blockchain, as explained in section 2, this data will become public and it will not likely be possible to delete or change the data at any given time.

3.10. Other uses of your Personal Data

We may process any of your Personal Data where it is necessary to establish, exercise, or defend legal claims. The legal basis for this processing is our legitimate interests, namely the protection and assertion of our legal rights, your legal rights and the legal rights of others.

Further, we may process your Personal data where such processing is necessary in order for us to comply with a legal obligation to which we are subject. The legal basis for this processing is our legitimate interests, namely the protection and assertion of our legal rights.

4. Use of Third Party Applications

4.1. MailChimp

We use MailChimp to send out newsletters to subscribers. MailChimp allows us to prepare customized Emails and manage our subscribers.

We do not store any information collected by MailChimp. MailChimp's privacy policy is available at <https://mailchimp.com/legal/privacy/>.

MailChimp's purpose and function is further explained under the following Link <https://mailchimp.com/>

4.2. Typeform

We use typeform for the registration and submission process. Typeform allows to create customized forms for several purposes.

Further information and the applicable data protection provisions of typeform please visit <https://admin.typeform.com/to/dwk6qt> .

Typeform's purpose and function is further explained under the following Link <https://www.typeform.com/product/>.

4.3. Bitly

When clicking on posted links in our Twitter other Medium profile, we use Bitly in order to track the success of the marketing campaigns, blog posts, and other marketing material; and for user demographics in order to identify target markets. We use Bitly to be able to compare our different marketing efforts and evaluate their success based on clicks on Bitly-links. This data is collected and processed by Bitly.

For further information and the applicable data protection provisions of Bitly please visit <https://bitly.com/pages/privacy> .

Typeform's purpose and function is further explained under the following Link <https://bitly.com/>.

4.4. Transmitting Social Media Links

At the end of our website we link to our social media profiles. Those services might also collect Personal Data. Please refer to their privacy policies for more information.

Slack channel: <https://slack.com/privacy-policy>

Facebook: <https://www.facebook.com/policy.php>

Twitter: <https://twitter.com/de/privacy>

Reddit: <https://www.redditinc.com/policies/privacy-policy>

Medium: <https://medium.com/policy/medium-privacy-policy-f03bf92035c9>

4.5. Ethereum Blockchain

When participating in the OWL generation process, your wallet address, the amount of locked GNO, and the time of locking and locking duration will be stored on the Ethereum blockchain. See section 2 of this Policy

The information will be displayed permanently and public, this is part of the nature of the blockchain.

If you are new to this field, we highly recommend informing yourself about the blockchain technology before using our services.

5. **Sharing Your Personal Data**

We may pass your information to our Business Partners, administration centres, third party service providers, agents, subcontractors and other associated organisations for the purposes of completing tasks and providing our services to you.

In addition, when we use any other third-party service providers, we will disclose only the personal information that is necessary to deliver the service required and we will ensure, that they keep your information secure and not to use it for their own direct marketing purposes.

In addition, we may transfer your personal information to a third party as part of a sale of some, or all, of our business and assets or as part of any business restructuring or reorganisation, or if we are under a duty to disclose or share your personal data in order to comply with any legal obligation. However, we will take steps to ensure that your privacy rights continue to be protected.

6. **Transferring Your data outside of the EU**

The distribution of our newsletter is realized with MailChimp, which is based in the US. MailChimp is certified under the EU-US Privacy Shield.

For tracking the success of our marketing campaigns we use Bitly, which is based in the US. Bitly is certified under the EU-US Privacy Shield.

However, when interacting with the blockchain, as explained above in this Policy, the blockchain is a global decentralized public network and accordingly any personal data written onto the blockchain may be transferred and stored across the globe

7. **Existence of Automated Decision-making**

We do not use automatic decision-making or profiling when processing Personal Data.

8. Data Security

We have put in place appropriate security measures to prevent your personal data from being accidentally lost, used or accessed in an unauthorised way, altered or disclosed. In addition, we limit access to your personal data to those employees, agents, contractors and other third parties who have a business need to know. They will only process your personal data on our instructions and they are subject to a duty of confidentiality.

We have put in place procedures to deal with any suspected personal data breach and will notify you and any applicable regulator of a breach where we are legally required to do so.

9. Your Rights as a Data Subject

You have certain rights under applicable legislation, and in particular under Regulation EU 2016/679 (General Data Protection Regulation or 'GDPR'). We explain these below. You can find out more about the GDPR and your rights by accessing the [European Commission's website](#).

Right Information and access

You have a right to be informed about the processing of your personal data (and if you did not give it to us, information as to the source) and this Privacy Policy intends to provide the information. Of course, if you have any further questions you can contact us on the above details.

Right to rectification

You have the right to have any inaccurate personal information about you rectified and to have any incomplete personal information about you completed. You may also request that we restrict the processing of that information.

The accuracy of your information is important to us. If you do not want us to use your Personal Information in the manner set out in this Privacy Policy, or need to advise us of any changes to your personal information, or would like any more information about the way in which we collect and use your Personal Information, please contact us at the above details.

Right to erasure (right to be 'forgotten')

You have the general right to request the erasure of your personal information in the following circumstances:

- the personal information is no longer necessary for the purpose for which it was collected;
- you withdraw your consent to consent based processing and no other legal justification for processing applies;
- you object to processing for direct marketing purposes;
- we unlawfully processed your personal information; and

- erasure is required to comply with a legal obligation that applies to us.

However, when interacting with the blockchain we may not be able to ensure that your personal data is deleted. This is because the blockchain is a public decentralized network and blockchain technology does not generally allow for data to be deleted and your right to erasure may not be able to be fully enforced. In these circumstances we will only be able to ensure that all personal data that is held by us is permanently deleted.

We will proceed to comply with an erasure request without delay unless continued retention is necessary for:

- Exercising the right of freedom of expression and information;
- Complying with a legal obligation under EU or other applicable law;
- The performance of a task carried out in the public interest;
- Archiving purposes in the public interest, scientific or historical research purposes, or statistical purposes, under certain circumstances; and/or
- The establishment, exercise, or defence of legal claims.

Right to restrict processing and right to object to processing

You have a right to restrict processing of your personal information, such as where:

- you contest the accuracy of the personal information;
- where processing is unlawful you may request, instead of requesting erasure, that we restrict the use of the unlawfully processed personal information;
- we no longer need to process your personal information but need to retain your information for the establishment, exercise, or defence of legal claims.

You also have the right to object to processing of your personal information under certain circumstances, such as where the processing is based on your consent and you withdraw that consent. This may impact the services we can provide and we will explain this to you if you decide to exercise this right.

However, when interacting with the blockchain, as it is a public decentralized network, we will likely not be able to prevent external parties from processing any personal data which has been written onto the blockchain. In these circumstances we will use our reasonable endeavours to ensure that all processing of personal data held by us is restricted, notwithstanding this, your right to restrict to processing may not be able to be fully enforced.

Right to data portability

Where the legal basis for our processing is your consent or the processing is necessary for the performance of a contract to which you are party or in order to take steps at your request prior to entering into a contract, you have a right to receive the personal information you provided to us in a structured, commonly used and machine-readable format, or ask us to send it to another person.

Right to freedom from automated decision-making

As explained above, we do not use automated decision-making, but where any automated decision-making takes place, you have the right in this case to express your point of view and to contest the decision, as well as request that decisions based on automated processing concerning you or significantly affecting you and based on your personal data are made by natural persons, not only by computers.

Right to object to direct marketing ('opting out')

You have a choice about whether or not you wish to receive information from us.

We will not contact you for marketing purposes unless:

- you have a business relationship with us, and we rely on our legitimate interests as the lawful basis for processing (as described above)
- you have otherwise given your prior consent (such as when you download one of our guides)

You can change your marketing preferences at any time by contacting us on the above details. On each and every marketing communication, we will always provide the option for you to exercise your right to object to the processing of your personal data for marketing purposes (known as 'opting-out') by clicking on the 'unsubscribe' button on our marketing emails or choosing a similar opt-out option on any forms we use to collect your data. You may also opt-out at any time by contacting us on the below details.

Please note that any administrative or service-related communications (to offer our services, or notify you of an update to this Privacy Policy or applicable terms of business, etc.) will solely be directed at our clients or business partners, and such communications generally do not offer an option to unsubscribe as they are necessary to provide the services requested. Therefore, please be aware that your ability to opt-out from receiving marketing and promotional materials does not change our right to contact you regarding your use of our website or as part of a contractual relationship we may have with you.

Right to request access

You also have a right to access information we hold about you. We are happy to provide you with details of your Personal Information that we hold or process. To protect your personal information, we follow set storage and disclosure procedures, which mean that we will

require proof of identity from you prior to disclosing such information. You can exercise this right at any time by contacting us on the above details.

Right to withdraw consent

Where the legal basis for processing your personal information is your consent, you have the right to withdraw that consent at any time by contacting us on the above details.

Raising a complaint about how we have handled your personal data

If you wish to raise a complaint on how we have handled your personal data, you can contact us as set out above and we will then investigate the matter.

Right to lodge a complaint with a relevant supervisory authority

If we have not responded to you within a reasonable time or if you feel that your complaint has not been resolved to your satisfaction, you are entitled to make a complaint to the Data Protection Commissioner under the Data Protection Act, which is presently the [Gibraltar Regulatory Authority](#) (GRA). You may contact the GRA on the below details:

Gibraltar Data Protection Commissioner

Gibraltar Regulatory Authority

2nd Floor, Eurotowers 4

1 Europort Road

Gibraltar

Email: info@gra.gi

Phone: (+350) 200 74636

Fax: (+350) 200 72166

You also have the right to lodge a complaint with the supervisory authority in the country of your habitual residence, place of work, or the place where you allege an infringement of one or more of our rights has taken place, if that is based in the EEA.

10. Storing Personal Data

We retain your information only for as long as is necessary for the purposes for which we process the information as set out in this policy.

However, we may retain your Personal Data for a longer period of time where such retention is necessary for compliance with a legal obligation to which we are subject, or in order to protect your vital interests or the vital interests of another natural person.

11. Changes to this Privacy Policy

We may make changes to this Policy from time to time. Where we do so, we will notify those who have a business relationship with us or who are subscribed to our emailing lists directly of the changes, and change the 'Last updated' date above. We encourage you to review the Policy whenever you access or use our website to stay informed about our information practices and the choices available to you. If you do not agree to the revised Policy, you should discontinue your use of this website.

12. Our details

This website is owned and operated by Gnosis Limited.

We are registered in Gibraltar under registration number 115571, and our registered office is located at:

You can contact us via:

Gnosis Limited
World Trade Center
6 Bayside Rd,
GX111AA Gibraltar

If you have any queries concerning your rights under this Privacy Policy, please contact us at dataprotection@gnosis.pm.
